STORY

One day while Sonic is waiting for a potentially stressful encounter with Amy, he is abruptly summoned into the book of *King Arthur and the Knights of the Round Table*™ by Merlina, the Royal Wizard of Camelot. She is being hunted down by King Arthur himself and begs Sonic to help her save the fabled kingdom.

Our blue hero immediately finds himself in the middle of the action where he is greeted by a not-so-noble looking king. The once beloved ruler is now bewitched by the power of the mighty Excalibur's scabbard, and as the Black Knight, he is spreading terror throughout Camelot.

To defeat the evil king, Sonic will partner up with Caliburn, a sacred sword with a proud manner. Sonic must learn to properly handle the blade as an honorable knight and prove he is worthy of challenging the great king.

Meeting familiar faces along the way, Sonic must defeat the evil Arthur and ultimately find a way to restore Camelot.

Worry not, good people of Camelot, the amazing duo shall bring peace to the kingdom and Sonic will be praised as one of the greatest knights of all time.

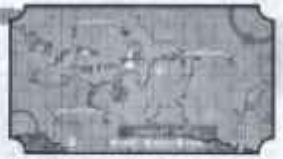
ADVENTURE MODE

MOVIES AND CUT-SCENES

The story of the game is presented before and after your Missions. Learn your next objectives from these narrative scenes. Press the + Button during the narrative if you wish to skip the presentation.

MISSION SELECTION



First, select an area on the map with your cursor or Pointer and press the A Button to zoom in on a selected area.

Next select a "NEW" Mission to advance the story. Mission objectives, as well as previous records of the selected Mission, will be displayed. Here are the five basic types of Missions available in Adventure mode:

GO FOR THE GOAL	Simply reach the goal area.
RAMPAGE	A set number of enemies must be defeated before you reach the goal.
RING-GIVER	Collect Rings and offer them to those who are in need. A set number of folks must receive your offerings before you reach the goal.
DEFEAT THE BOSS	A one-on-one duel with a boss. Inflict a certain number of hits to defeat them.
SPECIAL CHALLENGES	Read the on-screen objective and fulfill it to complete the Mission.

The ARE YOU READY? screen will be displayed once the Mission is confirmed. Select YES to start the Mission or access the Blacksmith screen once you find a Blacksmith who looks remarkably similar to one of Sonic's pals.

You can also select other Knights of the Round Table as you advance through the game. Once they are made available to you, the characters can be changed from here.

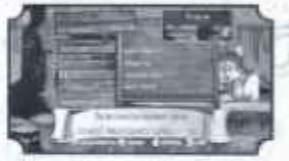
BLACKSMITH SCREEN

Access the Blacksmith screen to equip different items and change combat styles to adjust Sonic's abilities before you attempt the next Mission.

EQUIPMENT

Some items you pick up during the Mission can be equipped with beneficial effects. For example, you may receive more drop items or become immune to certain conditions. You can select one item for each slot.

STATUS



Changing your combat style according to the Mission can be a deciding factor when you are facing a difficult challenge. In the beginning you will only have one style to choose from, but others will become available as you advance through the story. Here are brief descriptions of all three combat styles:

KNIGHT STYLE	Sonic's default combat style. A good balance of sword and running abilities.
PALADIN STYLE	Your style of choice if you like to overpower the enemy knights with your sword.
CAVALIER STYLE	Your style of choice if you are aiming to clear the stage in record time.

IMPROVING COMBAT STYLES

The number of stars you receive at the end of each Mission (see p.14 – Results Screen) will be accumulated to improve your combat styles. The number of stars required to reach the next Proficiency Level can be confirmed from the Status Screen where you change your combat style. By increasing a style's level, you will gain more skills that improve Sonic's actions/attacks to swiftly clear your Missions.

NOTE: Characters other than Sonic do not have Combat Styles. Instead, their respective weapons will improve with use.

Vimm's Lair

GAME SCREEN

This screen shows one of the Missions in Adventure mode.

Note that display items will vary by the type of Missions you take.

❶ **NUMBER OF RINGS:** You will lose several Rings if you receive damage (20 for boss). You are forced to return to a given point if you are damaged while you have no Rings.

❷ **MISSION OBJECTIVE COUNTER:** Depending on the Mission, completion of specific actions (such as an Act of Chivalry) will be displayed here.

❸ **ACTION DISPLAY:** Actions you achieved will be displayed for a short time. Actions displayed in red are positive, blue are negative.

❹ **SOUL GAUGE:** Amount of energy available to perform a Soul Surge. The gauge will decrease when Soul Surge is used.

❺ **BEST TIME / ELAPSED TIME:** Best Time is displayed only if you have previously completed the Mission.

SOUL SURGE

If your Soul Gauge is at least 20% full, Sonic will be able to perform a special move known as the Soul Surge. When you see an enemy ahead, press the B Button and flick the Wii Remote to trigger the blazing attack move! You can keep this up as long as you have something left on your Soul Gauge. If you wish to suspend this attack, press the B Button at any time.

FAIRIES

You can expect something special when you find a fairy. There are many of them along the way, and they can be identified by the color of their glow. Simply touch them to gain the effect.

RED FAIRIES	Gain power on your Soul Gauge.
YELLOW FAIRIES	Add ten Rings to your total.
BLUE FAIRIES	Increase running speed on land or zoom up/down in midair.
PURPLE FAIRIES	Flick the Wii Remote at the right time to blast forward.

RING CONTAINERS

Rings can be found in various places throughout this adventure. Running through groups of barrels and pots or picking up brown sacks will add a few more to your total.

TREASURE CHESTS

Common items are picked up by defeating enemies, but some of the valuable ones are found inside treasure chests. Simply touch the treasure chest to pick up the item. Like all other items, it does not have an immediate effect, and must be identified at the Item Identification screen (p.15).

CORNER POLES

Use poles to move you along the path, all while gaining speed and collecting fairies. Simply jump towards a pole and Sonic will automatically swing around to gain momentum.

BREAKABLE BLOCKS

Big square blocks that are placed in your path can be destroyed with your sword. Some blocks will explode when they break, so quickly jump backwards once you hit them.

MYSTERY CIRCLES

Strange circles that appear on the ground and walls are in fact switches that trigger something in the stage. Simply touch the circle to see what it can do.

Vimm's Lair

BOTTOMLESS PITS

Depending on the Mission, there are places where you can fall endlessly into a bottomless pit. This is also considered a failure, forcing you to return to an earlier point in the stage and try again.

PAUSE MENU

Press the + Button during the Mission to pause the game. Move the cursor with the Control Stick/+Control Pad left and right to select one of the following options from the Pause screen.

RETRY	Restart the current Mission. The Timer (Elapsed Time) will reset to zero.
CONTINUE	Resume the current Mission.
QUIT	Quit the Mission and return to the Mission selection sequence.

RESULTS SCREEN

When you reach the end of the stage, the Results screen will be displayed. The most important message is the top header, indicating whether the Mission was completed or failed. If you failed the Mission, press the + Button to immediately retry the same Mission.

The following can be found on the Results screen when you successfully clear a Mission:

★★★★★	A Maximum of five stars are awarded based on your performance. These stars will be used to level up your combat style (p.11).
TOTAL SCORE	A score based on your overall gameplay.
KNIGHT'S HONORABLENESS	A bonus score earned by honorable behavior, such as not attacking foes from behind or harming the innocent townspeople.
FOLLOWERS	The number of townspeople who support Sora increases based upon your performance. If you've previously played the Mission, this number will be the total followers you gained from all of your tries.

MISSION-SPECIFIC RESULTS

Depending on the objective of the Mission, the third Mission-specific result (such as **KNIGHT'S HONOR BONUS** highlighted above) will vary by your Mission.

TITLE

Your popularity can be checked immediately after the Results screen. The number of followers increases, which can improve your title when you gain enough people. Improving your title as a knight allows you to increase your skills, and more townspeople will cheer you on (wave at you) during missions.

ITEM IDENTIFICATION

As a reward for completing the Mission, you're given an amount of ID Points based on your performance to reveal the unknown items you've picked up. Select an item from the bottom of the screen and press the A Button to identify the item. You cannot cancel identification once it is revealed, and any items you could not identify here will be discarded. If you are short on ID Points, choose your next item wisely.

ITEM TYPES

WEAPON	Weapon and Armor items are used to produce new weapons by the Blacksmith (p.11). New weapons can only be equipped by your supporting characters who are introduced later in the story.
ARMOR	
MEDICINE	Medicine items can be equipped as Equipment (p.11) to make you immune from certain types of damages.
